WINDOW GUARDS

Protect the rear windows from debris and damage.
High quality 304 stainless steel, guaranteed not to rust or corrode.

Rear window guards designed for 2007+ Freightliner Cascadia DayCab models with underslung exhaust. Fits 28" x 31" windows. Designed for trucks without rear grab handles (including horizontal bar(s) above rear window). If equipped, these handles may need to be relocated in order to install window guard. Guards are hinged for easy access to windows, and lock into closed position.

Available through Freightliner under part number ABP FL 534.
